

PARTIAL RETRACTION

The Editorial Board announces the formal publication of partial retraction of the article:

Borges SS, Ramos AFPL, Moraes Filho AV, Braga CASB, Carneiro LC, Barbosa MS. Prevalence of *Helicobacter pylori* infection in dyspeptic patients and its association with clinical risk factors for developing gastric adenocarcinoma. Arq Gastroenterol. 2019,56(1):66-70. doi: <http://dx.doi.org/10.1590/s0004-2803.201900000-03>.

The galley proof is based on the authors' commitment to ensuring the whole article conference.

In the last paragraph of DISCUSSION, a passage that was not part of the file was erroneously published.
