

# Erratum

## Bing-Neel syndrome.

Arq Neuropsiquiatr 2017;75(4):262. https://doi.org/10.1590/0004-282X20170017

## The name of the authors:

Artemiadis K Artemios<sup>1,2</sup>, Terentiou Aspasia<sup>2</sup>, Kolokythopoulos Dimosthenis<sup>3</sup>, Triantafyllou Nikos<sup>1</sup>, Nikolaou George<sup>2</sup>

## Should be:

Artemios K. Artemiadis<sup>1,2</sup>, Aspasia Terentiou<sup>2</sup>, Dimosthenis Kolokythopoulos<sup>3</sup>, Nikos Triantafyllou<sup>1</sup>, George Nikolaou<sup>2</sup>

## Epidemiological and clinical factors impact on the benefit of riluzole in the survival rates of patients with ALS

Arq Neuropsiquiatr 2017;75(8):515-522. http://dx.doi.org/10.1590/0004-282X20170083

## The columns RANGE of the table:

**Table.** Time intervals (median, in months) between the first symptoms and the diagnosis, and between the diagnosis and death.

| Authors                       | Year  | First symptoms to diagnosis | Range   | Diagnosis to death (survival) | Range    |
|-------------------------------|-------|-----------------------------|---------|-------------------------------|----------|
| Dietrich-Neto <sup>10</sup>   | 2000  | 11                          | 0 - 332 | 42                            | 7 - 191  |
| Tomik <sup>11</sup>           | 2000  | NM                          | NM      | 38                            | 10 - 218 |
| Aguila <sup>9</sup>           | 2003  | 32                          | NM      | 19                            | NM       |
| Traynor <sup>12</sup>         | 2003  | 10                          | 1 - 110 | NM                            | NM       |
