What do general neurologists need to know about neuropathic pain?

O que os neurologistas gerais devem saber sobre dor neuropática?

Schestatsky P, Nascimento OJM

Arq Neuropsiquiatr 2009;67(3-A):741-749

O primeiro autor, Pedro Schestatsky, solicita modificar figuras, como segue:

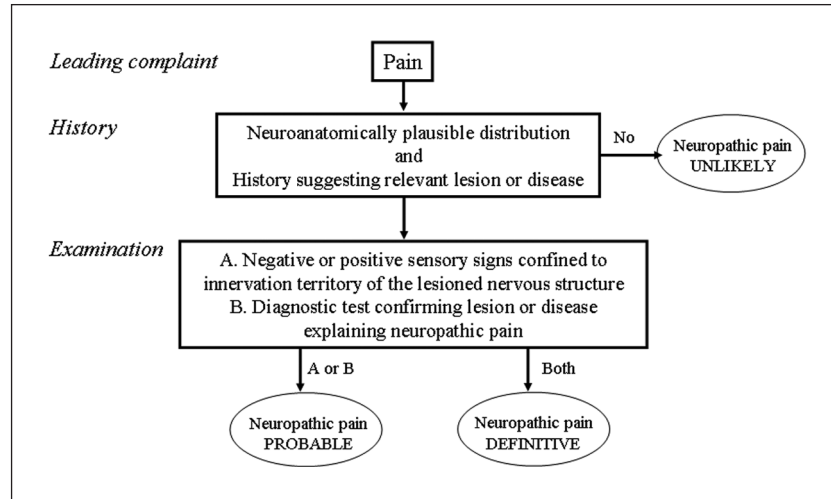

Fig 2. Levels of accuracy of the neuropathic pain diagnosis (Modified from Treede⁸ et al., 2007).

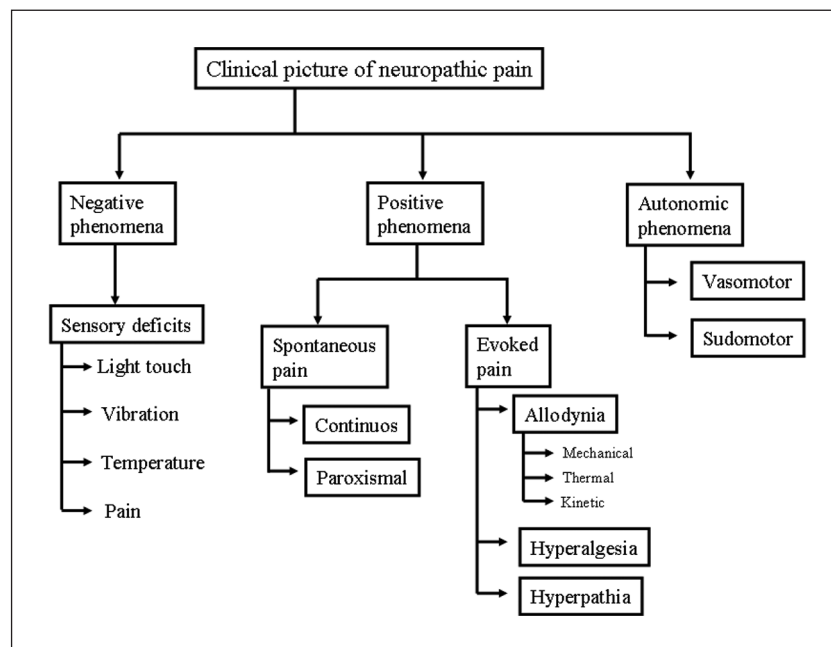

Fig 3. Clinical picture of neuropathic pain (Bennett⁵, 2006).

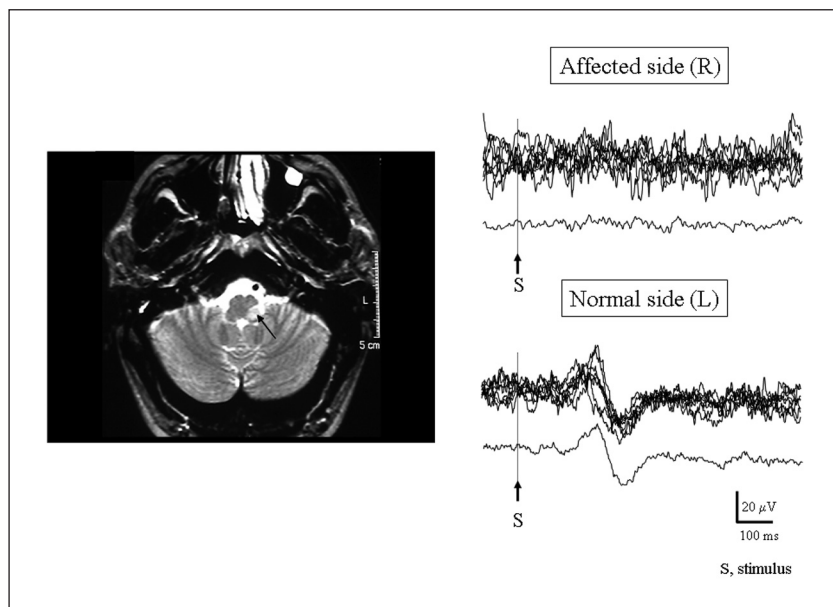

Fig 4. Absent laser-evoked potentials in a patient with Wallenberg syndrome, supporting the diagnosis of neuropathic pain (From Hospital Clinic of Barcelona, 2005).

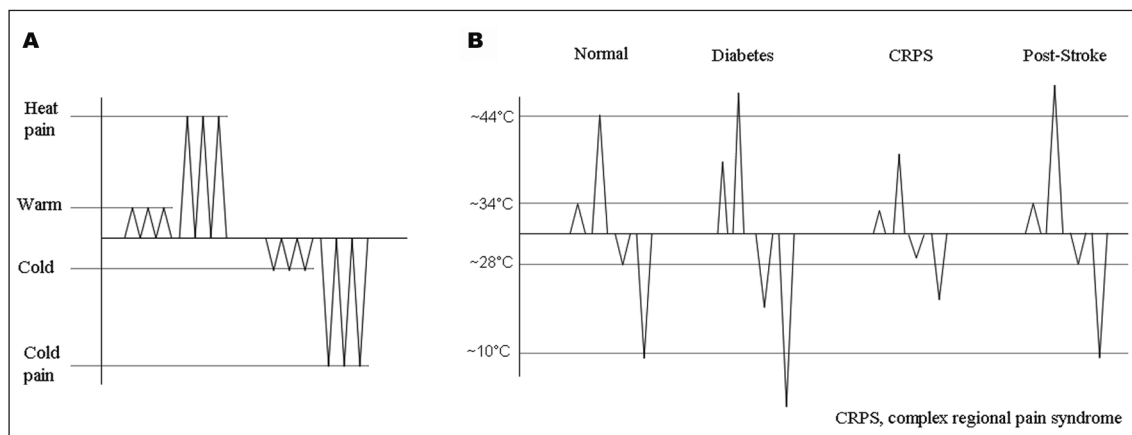

Fig 5. (A) Normal thermal thresholds in the quantitative sensory testing for temperature; (B) The most common patterns of QST abnormalities.

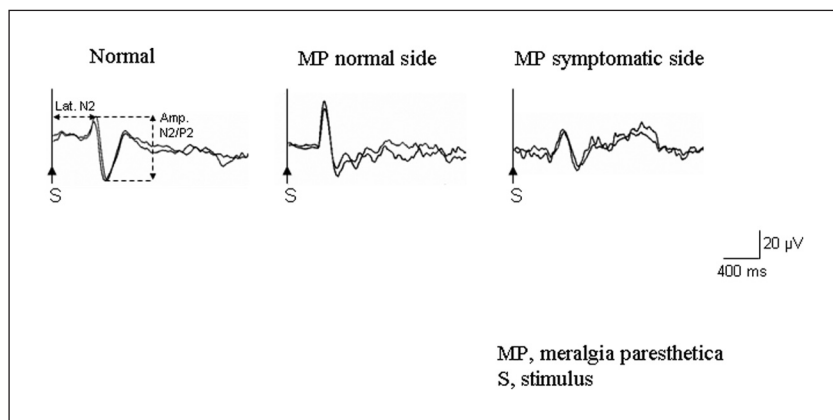

Fig 6. Small amplitude contact-evoked heat potentials applied in the symptomatic side of a patient with meralgia paresthetica (Schestatsky et al.⁴⁴, 2008).

Os Editores concordam com as modificações,

Antonio Spina-França,
