

Corrigendum

In document “The Motivation to Participate in Citizen-Sourcing and Hackathons in the Public Sector”, <http://dx.doi.org/10.1590/1807-7692bar2018180006e>, published in BAR – Brazilian Administration Review, 15(3), e180006, page 15, where it reads

Table 6

Standardized Indirect Effects (Mediated by Attitude) on Number of Participations in Public Sector Hackathons (Logarithm)

| INDEPENDENT VARIABLES | Standardized indirect effect | Confidence interval (95%) | <i>p</i> |
|--------------------------|------------------------------|---------------------------|-------------|
| Recognition | -0.024 | ..., -0.005 | .011 |
| Fun | 0.109 | 0.020, 0.197 | .023 |
| Learning | 0.019 | -0.011, 0.067 | .202 |
| Financial rewards | 0.022 | -0.001, 0.060 | .054 |
| Non-financial rewards | -0.008 | -0.052, 0.007 | .252 |
| Altruism | 0.013 | -0.014, 0.051 | .295 |
| Ideology | 0.010 | -0.013, 0.043 | .277 |

Note. We opt to maintain Financial Rewards due to the approximation of *p* to the parameter .05 and strong theoretical support.

... it should read:
