

ERRATA

Brazilian Journal of Biology, BJB 64(4): 797-807, intitulado: *Acute Morphological and Physiological Effects of Lead in the Neotropical Fish Prochilodus lineatus*. Figura 3 errada. Segue a versão correta:

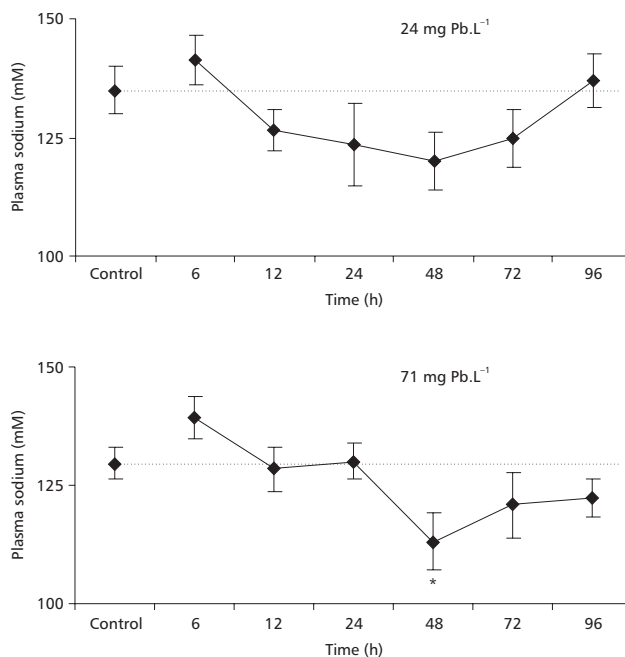

Fig. 3 — Plasma sodium concentrations of *P. lineatus* after 6, 12, 24, 48, 72, and 96 h exposure to different lead concentrations, 24 or 71 mg Pb.L⁻¹. Control animals were exposed only to water without lead during 96 h. The values are mean ± S.E. * Indicates significance difference from the control (p < 0.05).

ERRATA

Brazilian Journal of Biology, BJB 65(1): 19-24, intitulado: *Patterns of the Aquatic Macrophyte Cover in Cachoeira Dourada Reservoir (GO-MG)*. Figura 2 errada. Segue a versão correta:

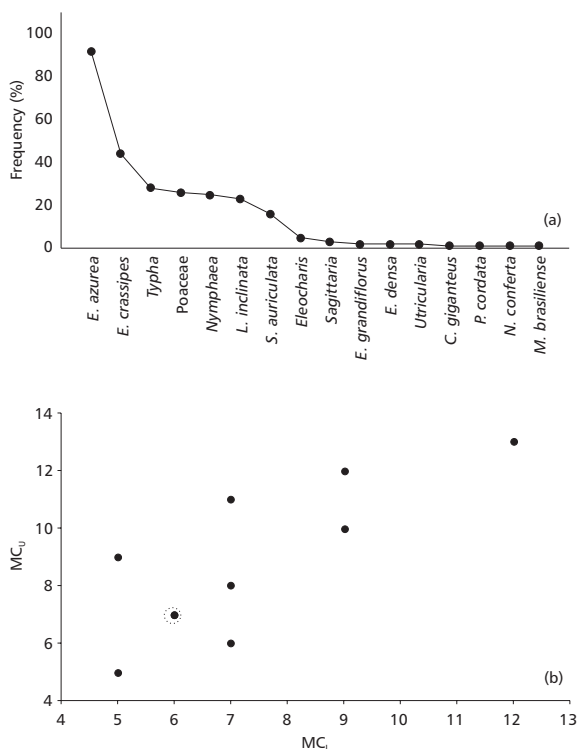

Fig. 2 — (a) Frequency of occurrence of the taxa registered in the Cachoeira Dourada reservoir (number of sampling sites = 37). (b) Relationship between aquatic macrophytes cover in the upper segments (MC_U) near the headwaters and in the lower segments (MC_L) near the reservoir main body of Cachoeira Dourada reservoir (n = 10). The dot inside the circle indicates two observations with the same values.
