

■ CLINICS 2012;67(11):1281-3

On page 1283, in the fourth paragraph, the VSD, which the authors presented the figure (Figure 1B), described the post-infarction VSD, whereas it should have been post-traumatic VSD, as follows:

“The post-traumatic VSD is almost angulated (Figure 1B), but the congenital VSD or ASD is straight.”
