

Erratum (v. 4, n. 3, 217-222, 2001)

Due to problems in the desktop publishing, the article *Wet Processing and Characterization of ZrO₂/Stainless Steel Composites: Electrical and Mechanical Performance*, by S. López-Esteban *et al.*, was printed with misplaced figures. The correct figures are:

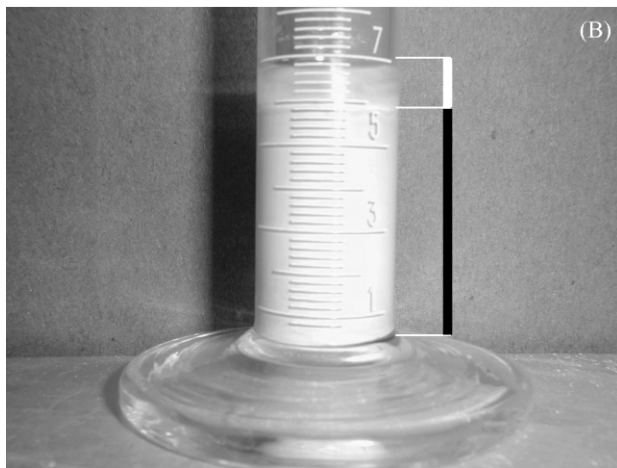

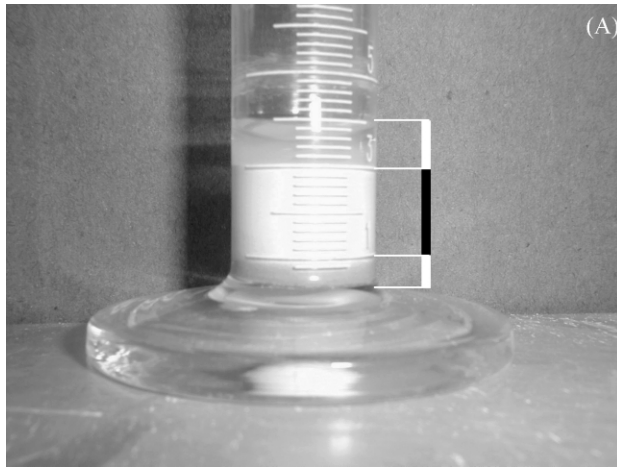

Figure 1. Sedimentation behaviour of two ZrO₂/stainless steel suspensions: A) 70 wt.% solid loading and 1 wt.% deflocculant, B) 80 wt.% solid loading and 3 wt.% deflocculant.

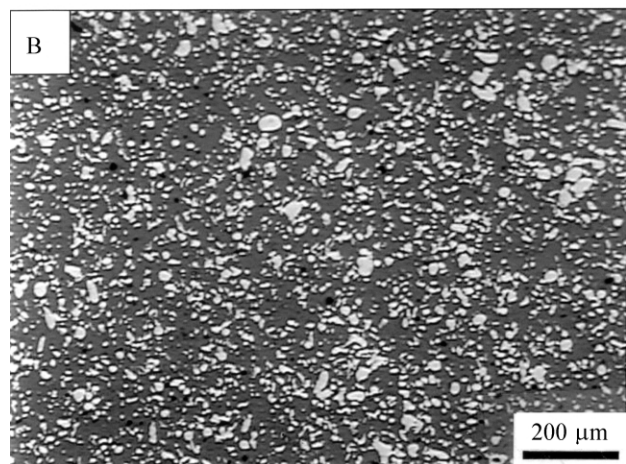

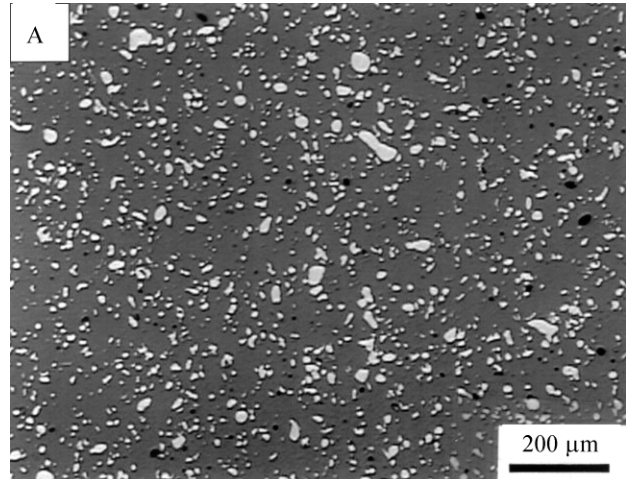

Figure 2. Optical micrographs of the polished cross section of zirconia/stainless steel composites: A) 15 vol.% metal and B) 30 vol.% metal. Lighter phase is metal and the darker phase is zirconia.
