Existe uma incorreção na página 376, na **table 1 - Demographic characteristics, affected eye, diagnosis and corrected visual acuity (CVA) pre-and postoperatively** na coluna – **Postoperative CVA** (coluna 6), com linha 13, **Stevens-Johnson syndrome. Onde se lia: 20/20. Leia-se: 20/20** na linha de baixo na mesma coluna também 20/20. Excluindo assim o dado 20/20 abaixo (linha 13) **Stevens-Johnson syndrome**.

Ainda no mesmo artigo científico “**Amniotic membrane transplantation in ocular surface diseases**” na página 377, houve uma troca das imagens nas figuras 1 A e 2 A, as legendas estão corretas alterando apenas a ordem das imagens.
