

# Editorial

---

With great satisfaction, I deliver the sixth number of 2014 composed by 35 scientific contributions, including 25 original articles, 5 literature review articles, 4 case reports and 1 opinion text in the fields of audiology, language, public health, orofacial motricity and voice.

During 2014 many changes have occurred in the CEFAC Journal and we could count on the involvement, participation and dedication of the authors and reviewers that greatly contributed to raising the level of published scientific papers and science communication on the national scene.

Next year the CEFAC Journal will start again with changes in its format, aiming to maintain the quality of published articles.

I conclude this editorial thanking the authors and the reviewers for their important contributions and announcing you to stay tuned to the scientific articles submission rules, because on February 2015, CEFAC Journal will go through new changes, including the submission of articles in Scholar One and the fee payment for the publication of accepted papers.

Good reading and a 2015 full of professional and scientific achievements!

**Profa. Dra. Simone Aparecida Capellini**
