

With great satisfaction, I deliver the fifth issue with 35 scientific contributions, including 30 original articles, 3 literature review articles and 2 case reports in the fields of audiology, language, public health, orofacial motricity and voice.

As for the original articles, **Buss, Rossi** and **Buss** present the first contribution on the *Desempenho na avaliação do processamento auditivo de um grupo de idosos protetizados: influência de perda auditiva, idade e gênero* (Performance in the auditory processing evaluation in a group of elderly people with hearing aid: influence of hearing loss, age and gender). The second contribution is from **Borges, Rocha, Couto** and **Mancini**, on the *Comparação do equilíbrio, depressão e cognição entre idosas institucionalizadas e não-institucionalizadas* (Comparison of balance, depression and cognition among institutionalized and non-institutionalized elderly). **Machado, Alves, Nascimento, Lucena, Ferreira, Parlato-Oliveira** and **Carvalho** wrote the third contribution on the *Investigação do reconhecimento do próprio nome em bebês de 4 a 5 meses: estudo piloto* (Investigation of the recognition of their own names in 4-5 month-old babies: a pilot study). The fourth contribution is from **Albuquerque, Bernardo, Silva, Nagib** and **Frota** *Biossegurança em fonoaudiologia* (Biosafety in phonology).

**Taxini, Kinoshita** and **Guida** have the fifth contribution on the *Análise acústica em brinquedos ruidosos* (Acoustic analysis in noisy toys). *Nova proposta de ensino da psicoacústica* (New teaching proposal of psychoacoustics) is the sixth contribution written by **Blasca, Mantovani, Campos, Ascencio, Campos** and **Alvarenga**. **Boscatto** and **Machado** present the seventh contribution *Teste da Orelhinha no Hospital São Vicente de Paulo: Levantamento de Dados* (Test of OAE in the São Vicente de Paulo Hospital: Survey Data). The subject *Perfil dos usuários de AASI com vistas à amplificação, cognição e processamento auditivo* (Profile of hearing aid users in regards to amplification, cognition and auditory processing) is the eighth contribution by **Viacelli** and **Costa-Ferreira**.

The study entitled *Condição auditiva de frentistas* (Hearing condition from the gas station attendants) is the ninth contribution from the authors **Tochetto, Quevedo** and **Siqueira. Becker, Costa** and **Lessa** present the tenth contribution entitled *Reconhecimento de fala em escolares de 7 a 10 anos de dois distintos níveis socioeconômico-culturais* (Speech Recognition in 7-10 year-old schoolchildren from two different socioeconomic and cultural levels).

The eleventh contribution **Santos, Gil, Vieira, Marangoni, Andrade** and **Ortiz** on *Avaliação comportamental do processamento auditivo em indivíduos pós- traumatismo cranioencefálico: estudo piloto* (Behavioral assessment of the auditory processing in individuals after traumatic brain injury : a pilot study). The twelfth contribution **Mesquita** and **Pereira** discuss the *Processamento temporal em idosos: o efeito da habilidade de resolução temporal em tarefas de ordenação de séries de sons* (Temporal processing in the elderly: the effect of the temporal resolution ability in tasks of ordering series of sounds). *Benefício fornecido pelo uso de aparelhos de amplificação sonora individual em idosos de um programa de saúde auditiva de Porto Velho-RO* (Benefit provided by the individual use of hearing aids in elderly from a hearing health program in Porto Velho – RO) is the thirteenth contribution from **Rodrigues, Aurélio** and **Silva**. The study entitled *Evasão dos pacientes nos acompanhamentos nos serviços de saúde auditiva: identificação sobre o motivo e resultados pós-adaptação de AASI* (Evasion of patients in the follow-ups in hearing health services: identification of the reason and results post-hearing aid fitting) is the fourteenth contribution **Jokura, Melo** and **Bevilacqua. Michelon, Rockenbach, Floiano, Delgado** and **Barba** presented the fifteenth study on *Triagem auditiva neonatal: índice de normal/alterado com relação ao sexo, tipo de parto e tempo de vida* (Neonatal hearing screening: normal/altered index in regards to gender, type of birth delivery and lifetime).

The sixteenth contribution by **Albiero, Melo, Wiethan** and **Mota** is on *Média dos valores da frase em diferentes gravidades do desvio fonológico evolutivo* (Average values of the phrase in different severities of phonological disorder). The study entitled *Olhar pedagógico sobre a gagueira* (Pedagogical view on stuttering) is the seventeenth contribution authored by **Celeste, Russo** and **Fonseca. Lopes** and **Crenitte** present the eighteenth contribution *Estudo analítico do conhecimento do professor a respeito das dificuldades de aprendizagem* (Analytical study of the teacher's knowledge about learning disabilities).

Authors **Stefanini, Oliveira, Marcelino** and **Maximino** present the nineteenth contribution on *Consciência fonológica: análise de dois instrumentos de avaliação* (Phonological awareness: analysis of two assessment instruments). The twenty contribution is on the *Análise da produção científica*

*internacional sobre gagueira* (Analysis of international scientific production about stuttering) written by **Carvalho** and **Friedman**. The theme *As variáveis intervenientes na produção do onset complexo mediante uma análise silábica* (Variables involved in the production of complex onset by syllabic analyses) authored by **Mezzomo, Vargas, Cuti** and **Lopes** is the twenty-first contribution.

The twenty-second contribution is about *Narratividade do professor: mediação e linguagem na sala de aula* (Teacher's narrativity: mediation and language in the classroom) from the authors **Chesini, Crestani** and **Souza**. The article *Prevalência de maloclusão em escolares de 5 a 12 anos de rede municipal de ensino de Araraquara* (Prevalence of malocclusion in 5-12 year-old schoolchildren from municipal schools in Araraquara) from the authors **Boeck, Pizzol, Navarro, Chiozzini** and **Foschini** is the twenty-third contribution. **Navarro, Assis, Souza, Filho, Azenha** and **Tessitore** present the twenty-fourth contribution entitled *Alterações de funções orais na presença de aparelhos ortodônticos fixos com recursos intraorais* (Changes in oral functions in the presence of fixed orthodontic appliances with intraoral resources).

*Avaliação da profundidade do palato duro: correlação entre método quantitativo e qualitativo* (Evaluation of the depth of the hard palate: correlation between quantitative and qualitative method) is the twenty-fifth contribution from the authors **Maria, Silva, Busanello-Stella, Bolzan** and **Berwig**. The twenty-sixth contribution is from **Mituuti, Santos, Teles** and **Berretin-Felix** entitled *Características da fonetografia em indivíduos com equilíbrio dentofacial pós-muda vocal* (Features of the phonetography in individuals with dentofacial balance after voice change). **Cielo, Lima, Gonçalves** and **Christmann** present the theme *Relações entre os fricativos /s/ e /z/ e entre as vogais /e/ áfono e /e/ sonoro: tempos máximos de fonação* (Relations between the /s/ and /z/ fricatives and between the voiceless /e/ and voiced /e/ vowels: maximum phonation time). The twenty-eighth contribution is on the *Investigação da adesão ao atendimento fonoaudiológico no contexto da Atenção Básica* (Investigation of the adherence to the speech therapy in the context of Primary Attention) from **Paro, Vianna** and **Lima**. *Avaliação do Conforto do Protetor Auditivo Individual numa Intervenção para Prevenção de Perdas Auditivas* (Evaluation of Comfort of the Individual Ear Plug in an Auditory Intervention for Hearing Loss Prevention) is the twenty-ninth contribution from the authors **Sviech, Gonçalves, Morata** and **Marques**. *Perícia fonoaudiológica: conhecimento e atuação dos profissionais da fonoaudiologia de dois Estados do Brasil* (Phonoaudiological expertise: knowledge and performance of professional phonoaudiologists from two states in Brazil) written by **Gorski, Lopes** and **Silva** is the thirtieth contribution.

The literature review article entitled *Qualidade de vida em disfagia na doença de Parkinson: uma revisão sistemática* (Quality of life in dysphagia in Parkinson's disease: A systematic review) is the thirty-first contribution authored by **Carneiro, Belo, Coriolano, Asano** and **Lins**. The thirty-second contribution is from **Serey** and **Araya** entitled *Instrumentos aplicados en la evaluación de la voz en profesores: estudio bibliográfico* (Instruments applied in the teachers' voice assessment: literature review). **Cavalcante, Ferrite** and **Meira** present the thirty-third contribution entitled *Exposição ao ruído na indústria de transformação no Brasil* (Exposure to noise in the manufacturing industry in Brazil). The thirty-fourth contribution is a case report authored by **Simão, Romero, Baraldil, Oda, Viana, Chiappetta** and **Pieri** entitled *Avaliação clínica da relação entre postura, respiração e deglutição em paciente pós- acidente vascular cerebral na fase crônica* (Clinical evaluation of the relationship between posture, breathing and swallowing in post-stroke patients in the chronic phase). The thirty-fifth and final contribution is authored by **Mancopes, Gonçalves, Costa, Flores, Santos** and **Drozdz** on *Relato de caso: a importância da atuação multiprofissional na laringectomia supracricóide* (Case report: the need for multidisciplinary action in supracricoid laryngectomy).

I conclude this editorial wishing a good reading for everyone!

**Profa. Dra. Simone Aparecida Capellini**
