

**SciELO Brazil criteria
Open Science Compliance Form
version June 29, 2020**

Through this form, authors inform Acta about the compliance of their manuscript with Open Science communication practices. Authors are asked to inform whether: (a) the manuscript is a preprint and its location (if positive); (b) data, program codes, and other materials included in the manuscript are properly cited and referenced; and (c) authors accept open options in the peer-review process.

Preprints

Deposit of the manuscript on a preprint server recognized by Acta.

Is your manuscript a preprint?	
<input type="checkbox"/>	Yes - Name of the preprint server: Preprint DOI :
<input type="checkbox"/>	No

Availability of Research Data and other Materials

Authors are encouraged to make available all content (data, program codes, and other materials) included in the manuscript text before or at the time of publication. Exceptions are allowed in case of legal and ethical issues. Our objective is to facilitate manuscript evaluation and contribute to the preservation and reuse of content and the reproducibility of research (if publication is approved).

The contents included in the manuscript text are already fully available and without restriction or will they be available at the time of publication?	
<input type="checkbox"/>	Yes: <input type="checkbox"/> the contents of the study are included in the manuscript <input type="checkbox"/> the contents are already available <input type="checkbox"/> the contents will be available when the article is published Below are the titles and respective URLs, accession numbers, or DOIs of the content files included in the manuscript (use one line for each data):
<input type="checkbox"/>	No: <input type="checkbox"/> data will be available on demand from reviewers <input type="checkbox"/> data will be available after publication on demand from authors - condition justified in the manuscript <input type="checkbox"/> the data cannot be made publicly available. Please justify below:

Openings in peer review

Authors may choose one or more means of opening the peer review process offered by Acta.

Do authors agree to the publication of manuscript approval evaluation opinions when the option is offered?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No
Do authors agree to directly interact with the reviewers responsible for evaluating the manuscript when the option is offered?	
<input type="checkbox"/>	Yes
<input type="checkbox"/>	No
